Recent Wipro intern with hands-on experience in ASP.NET, Microsoft Entity Framework, HTML5/CSS3, and MS SQL Server. Successfully completed a capstone project post-dotnet training, demonstrating strong teamwork and web development skills.

Work Experience

Intern

Feb 2022 - Apr 2022

Wipro | Hyderabad

During this internship I have undergone with the dotnet training. Post training, I am assigned to Capstone project with the team of 5 members, which I am able to complete with the skills that I have gained during the training.

- ASP.NET Framework is used for web application development.
- Microsoft Entity Framework is used for data modeling and database interaction.
- HTML5/CSS3 is used for Front-end design and styling
- MS SQL Server is used for database.

Projects

Car Zone - A Used Car Selling Business Website

Car Zone is a website designed for a car business owner. The site serves as a platform for listing cars, allowing users to explore the latest and featured vehicles

- Car Listings: Users can browse through the car inventory, filter by model or price, and view details.
- Inquiries: Users can make inquiries about specific cars available for sale.
- Bootstrap Integration: I have used a Bootstrap template to create an appealing frontend for Django project.
- Social Login: I have implemented Google and Facebook login options to attract users.

Core Skills

ASP.NET, ASP.NET MVC, C#, Dot net core, Java, Python, Django, React 16, SQL, HTML, CSS, Bootstrap, Software Development, Web Development, Visual Studio, VS Code, GIT, Github.
